THE HISTORY OF THE UNITED STATES

The history of the United States is a complex and multifaceted story. It begins with the early Native American civilizations, such as the Mayans, Aztecs, and Incas, who built great empires in the Americas. The discovery of the New World by Christopher Columbus in 1492 marked the beginning of European exploration and settlement in North America. The Pilgrims and Puritans, seeking religious freedom, established the first permanent English colonies in the early 17th century. The American Revolution, fought between 1775 and 1783, led to the birth of the United States as an independent nation. The Constitution, signed in 1787, established the framework for the federal government. The 19th century was a period of westward expansion, industrialization, and the struggle for civil rights. The Civil War, fought from 1861 to 1865, resolved the issue of slavery and preserved the Union. The 20th century saw the United States emerge as a global superpower, leading the world in the Cold War and playing a central role in the development of the modern world.
