

Diagram illustrating the process of data collection and analysis.

The process involves the following steps:

1. Data Collection: Gathering data from various sources.
2. Data Cleaning: Removing any missing or incorrect data.
3. Data Analysis: Analyzing the data to identify patterns and trends.
4. Data Visualization: Presenting the data in a clear and concise manner.

The data is then used to create a report.

The report is then used to make decisions.

The process is repeated as needed.
